Landscape Irrigation Restrictions For Toho Water Authority Service Area

Portions of Osceola County within the service area of the Toho Water Authority shall follow water restrictions established by the Toho Water Authority.

- **No watering between 10:00 a.m. and 4:00 p.m.**

Established Landscaping

The watering day starts and ends at midnight.

- Residential customers with odd street numbers (ends with 1, 3, 5, 7 or 9) may irrigate on **Wednesday** and **Saturday**.
- Residential customers with even street numbers (ends with 0, 2, 4, 6 or 8) may irrigate on **Thursday** and **Sunday**.
- Non-residential customers (businesses, schools, government, churches, subdivision common areas, recreation areas, medians) may irrigate on **Monday** and **Friday**.

New Landscaping

- New landscaping may be watered every day for 30 days after installation.
- Run only those zones that water the new landscaping.
- If you receive a violation during the 30-day period, call 407-944-5120.

Exceptions to Water Restrictions

- Watering in lawn care chemicals (fertilizer, pesticides, insecticides, herbicides, fungicides) as directed by manufacturer or following best management practices.
- Repair and/or maintenance of the irrigation system.
- Water discharged from a water-cooled air conditioning system.
- Watering with a hand-held hose with a shutoff nozzle.

Reclaimed Water

Days and times are determined by subdivision. For a complete list of subdivisions, go to www.tohowater.com and click on "Watering Days & Times."

- Reclaimed water will be turned on no later than 9 a.m. on the designated day.
- A reclaimed watering day is a 24-hour period that starts at 9 a.m., and continues past midnight until 9 a.m. of the following day.

- This means that if you want to water in the early morning hours, you would set your controller for the day after your watering day.
Example: If your watering days are Saturday and Wednesday, and you wanted to start irrigating at 3 a.m., you would set the controller's run days to Sunday and Thursday.

Irrigation Using Other Water Sources

Water from wells, stormwater ponds, lakes and rivers may be used for irrigation during the same watering days and times allowed for established landscaping.

For more information, contact the Toho Water Authority at (407) 944-5000, or visit the website at www.tohowater.com.
